This ensures that you will receive training in a systematic manner and have sufficient time to reflect and understand what you have learnt.

New Changes - Assisted Self-Directed Learning

As learners become more sophisticated as well as has a perference to learn at different pace, IDENTI3 is restructuring their accreditation to meet the changing needs of learners. Our accreditation program will transform into ‘Assisted-Self-Directed Learning Programs’.

Assisted-Self-Directed Learning Programs are MILESTONE based learning that looks at individual comprehension instead of basing it on unproductive contact time.

The course content will also be revised to be more interactive and bite-sized learning (current content are more textbook based). Learners will receive the reading materials and get assisted with the questions they may have. The sequence will look like this:

- i) Material will be provided to learners during the first contact. Briefing (i.e 1 hour) will be done on key expectations.
- ii) Learners will be given time to read at their own pace.
- iii) Learners will meet-up online on schedule date(s) (i.e 1.5 hour). Learners can email, whatsapp their facilitators anytime.
- iv) During the online session, there will be Q & A followed by mini assessments to assess learner’s comprehension
- v) In the final session, there will be a final discussion of program followed by final assessment (This may vary module to module).

While IDENTI3 will continue to provide scheduled learnings for groups to provide support and learning to

and with classmates, Assisted-Self-Directed Learning Programs will benefit for those who are in different time zone or are unable to attend scheduled online or classroom timings.
